

This is a reminder that our school's clinic for second doses of H1N1 flu vaccine will be held on **Friday, January 22, 2010 at 4:00 pm**. Children who were younger than 10 years of age at the time of our H1N1 flu vaccination clinic in the fall will be vaccinated at this clinic. Woodridge students who received their first doses from pediatricians can also get their second doses at our clinic. In addition, Woodridge School students who are younger than 10 years of age and who did not receive their first doses of H1N1 flu vaccine can receive their first doses at our clinic. A responsible adult should accompany each child to the clinic.

If your child received his or her first dose of H1N1 flu vaccine at our first clinic, you do not have to sign an additional consent form. If your child did not attend our clinic in the fall, please sign, date, and return the H1N1 flu vaccination consent form to Woodridge School as soon as possible. You can download consent forms from the website of the Rhode Island Department of Health ([www.health.ri.gov](http://www.health.ri.gov)).

Please remember that only children who attend Woodridge can be vaccinated at this clinic. Your child cannot be vaccinated at a school clinic other than the one scheduled for Woodridge.

If you have any questions about our school's H1N1 flu vaccination clinic, please call the school at 270-8007.
